PROFILE

Hybrid finance / tech engineer, self-taught developer, focused on scoping, architecting and deploying agentic Data & AI solutions. Founder of EPTA5 (SAS): a B2B financial-data platform built on RAG architecture, 20+ Python / SQL pipelines and Cloudflare edge infrastructure. I translate complex business problems into technical specifications and production AI agents, then deploy and iterate on them directly with the user.

CERTIFICATIONS & TECHNICAL VALIDATIONS

- **AI & development** : Anthropic — Claude ecosystem, 8 certifications (Claude Code 101, Claude Platform 101, Subagents, Claude Cowork, AI Fluency) | Career Essentials in Generative AI — Microsoft & LinkedIn.
- **Methodology & delivery** : Atlassian University — Jira track, 4 courses | Agile / Scrum practice.
- **Data & BI** : Google Data Analytics Professional Certificate | Power BI PL-300 — internal certifying assessment, Groupe BPCE, 87.3%.
- **Finance & compliance** : CFA Level 1 Candidate — CFA Institute | AMF Certification | DCI & DAA.

PROFESSIONAL EXPERIENCE

Aug 2026 – Present **AI Automation & Agents Consultant** — Freelance, non-exclusive — AI agency: real estate, retail & logistics

- Client needs scoping and delivery of AI agents (RAG, tool use, function calling) for demanding sectors.
- Automation workflows, evaluation suites (evals) and observability — deliverables tracked in Jira sprints.

Apr 2026 – Present **EPTA5 (SAS) — Founder & Lead AI / Data Engineer** — www.epta5.com

- **Agentic architecture & RAG** : production RAG + BYOK system, multi-agent orchestration, tool use, guardrails, AES-256-GCM encryption.
- **Pipelines & data engineering** : 20+ Python pipelines ingesting and cleaning external financial feeds via GitHub Actions (CI/CD cron) and Cloudflare D1 (SQL).
- **Proprietary CRM & data-driven acquisition** : usage metrics (clicks, signups, activation, conversion), lead scoring and enrichment.
- **Scoping & TCO** : PRD, roadmap, LLM and API cost / performance trade-offs, 100% serverless edge. Agile (Scrum) delivery, Jira backlog.
- **Product ecosystem: free trial** — epta5.com/event · 4 free tools — epta5.com/free-tools · EPTA Academy, 15 modules — epta5.com/academy · blog — epta5.com/blog

Jul 2025 – Present **Financial Advisor (permanent)** — Caisse d'Épargne, BPCE Group — Paris, France

- Quantitative analysis and modeling of complex financial instruments (autocallable structured products with barrier and memory features).
- Client needs scoping, investment strategy structuring and regulatory compliance (AMF, GDPR).

Nov 2024 – Apr 2025 **Retail Banking Advisor** — Société Générale — Paris, France

- Premium portfolio management: financial needs analysis, asset allocation, compliance standards.

TECHNICAL PROJECTS

- **ORION (2026)** — self-hosted AI assistant: hardened Linux VPS, Docker stack (PostgreSQL / pgvector, Redis, n8n), multi-agent architecture, multi-model router across local LLMs and APIs, MCP Builder module (FastMCP, sandbox, hot-reload).
- **Power BI Backtesting Engine (2024-2025)** — multi-variable decision dashboard, DAX, 4+ risk KPIs: Sharpe, max drawdown, win rate.
- **Investment-Insight & Together Growth** — Python quantitative screener (DCF, PEG, VaR, Altman Z-Score), backtesting, applied ML, C++ automation.

TECHNICAL SKILLS

- **AI & agents** : multi-agent, RAG, BYOK, HITL, tool use, function calling, MCP, guardrails, evals, observability, LLMops, local LLMs (MLX).
- **Data & dev** : Python, SQL, React, TypeScript, REST APIs, GitHub Actions / CI-CD, Cloudflare Workers / D1, Drizzle ORM, Docker, PostgreSQL / pgvector, Redis, Linux VPS, C++.
- **Operational libraries**: 1,000+ referenced and documented APIs (all domains) and 500+ agentic AI skills ready to plug in per project — built through personal collection and shared research.
- **Delivery** : scoping (PRD, OKR, roadmap), Agile / Scrum, Jira, stakeholder management, TCO, automated audits (security, SEO, GEO).

 Python  TypeScript  React  SQL  Cloudflare  GitHub Actions  n8n  Cursor  Claude Code

EDUCATION

2023 – 2024 **Banking & Finance program (BTS level)** — IFCV Paris · work-study at SereniLifeGroup

- 2026 (in progress): CFA Level 1 Candidate — CFA Institute.
